

# WATERMELON

# EXCURSION

Performs well even in challenging conditions to meet market demands. Produces large fruit that mature up to seven days earlier than the current standard varieties with 50% or more potential 36-count fruit.

|                      |                               |
|----------------------|-------------------------------|
| Relative Days (TP)   | 81                            |
| Type                 | Hybrid Triploid Crimson Sweet |
| Weight               | 17-22 lbs.                    |
| Shape                | Blocky Oval                   |
| Flesh Color          | Deep Red                      |
| Resistance/Tolerance | IR: Co: 1, Fon: 1             |
