

WATERMELON

Wing Man

An extended flowering pollenizer that improves the likelihood of available pollen during the critical flowering of triploid watermelons. Strong, compact vine structure allows it to climb up on triploids. It provides little competition and produces a small, grey crushable fruit for increased safety while walking through the field and is easily distinguishable during harvest.

Relative Days (TP)	Early
Type	Hybrid Pollenizer
Plant Characteristics	Strong, Compact Vine
Fruit Characteristics	Light Green, Minimal Stripes, Small
Resistance/Tolerance	IR: Fon: 1

Pathogen and Pest Codes:
 Fon Fusarium Wilt (*Fusarium oxysporum* f. sp. *niveum*)
